### Employee Module:

In Employee we have 2 tabs, they are

- Add Employee
  - View and Edit Employee
1. Add Employee is used to add the new Employees. Filling all the details of employee, and we have an option of giving permissions to employee , and also select the store that is in which store an employee has to work, after that click on save ,it saves data permanently.

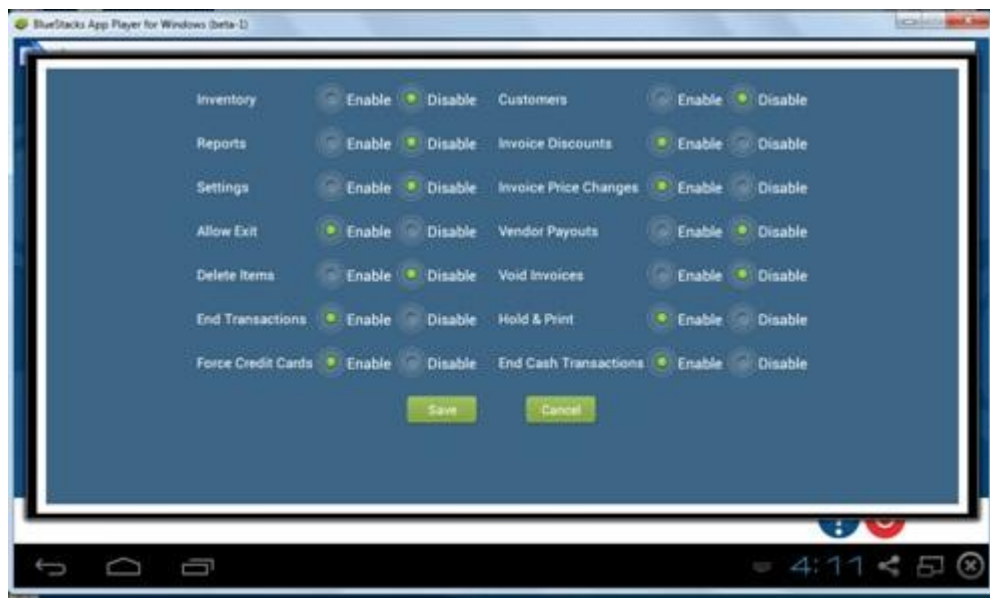

In Employee we have the following tabs

- Permissions
- Personal Info

- Payroll Info
- Store Info

In Permissions we have to decide in which module the employee enter and perform certain operations. Screen is as follows

Personal Info contains the details about the Employee

Store Info contains the Store details, select in which store we want to work.

2. View and Edit Employee is to view the existing employee details and also edit the details of a particular Employee, after that click on save button, it will saves permanently
